

For Immediate Release:

Chubb Insurance Reviews Benefits of GeckoSystems' Mobile Robot Solutions

ATLANTA, GA, March 23, 2009 /PRNewswire-FirstCall via COMTEX/-- GeckoSystems Intl. Corp. (PINKSHEETS: GCKO) announced today that they demonstrated their latest CareBot(tm) MSR to a management team from Chubb Insurance. GeckoSystems is a dynamic leader in the emerging Mobile Service Robot (MSR) industry revolutionizing their development and usage with "Mobile Robot Solutions for Safety, Security and Service(tm)."

"We really had no idea that multi-tasking personal robots were so advanced and near to market," commented Linda H. King, MBA, Ph.D., Senior Underwriting Officer, Chubb Group of Insurance Companies. "The cost savings and non monetary benefits to families promise to be very significant from what we have seen and heard today. We will do what we can to assist GeckoSystems in their enterprise. This is an important achievement."

"Improving family's ability to better care for their loved ones is an important focus for us in our decade long development of mobile robot technologies," related Martin Spencer, President/CEO of GeckoSystems. "While we have done a great deal of primary market research regarding the market's expectation of what the family is willing to pay for being able to keep loved ones out of nursing homes and in their personal home of many years, we are always pleased when an organization that is extremely focused on eldercare costs, concludes that assisting us in our activities is of potential benefit to all stakeholders. Of course our investors will enjoy an improved ROI the more relevant and acceptable our product line is to the marketplace."

About the Chubb Group:

The member insurers of the Chubb Group of Insurance Companies form a multi-billion dollar organization providing property and casualty insurance for personal and commercial customers worldwide through 8,500 independent agents and brokers. Chubb's global network includes branches and affiliates in North America, Europe, Latin America, Asia and Australia. Chubb is a worldwide leader in insuring fine homes, automobiles, yachts, antiques and other collectibles, and personal liability. Additional information on Chubb can be found at <http://www.chubb.com/>.

About GeckoSystems International Corporation:

In the ten years since its founding, GeckoSystems has developed a suite of proprietary, fundamental technologies that enable their robots to automatically self-navigate the home or workplace using advanced sense and avoid technologies for reliable, unattended collision avoidance while patrolling, following and/or errand running. Their scientifically developed, tested, and proven hardware and software breakthroughs enable the practical, low cost manufacture, sale and usage of mobile service robots in a variety of environments.

The Company's mobile robot solutions are appropriate for the consumer, professional healthcare, commercial security and defense markets. The consumer has needs for family care assistance with remote monitoring and notification. Professional healthcare needs cost effective errand running, portable telemedicine, etc. Homeland Security needs cost effective mobile robots patrolling public venues with threat detection systems. Military users desire the elimination of the "man in the loop" to enable unmanned ground and air vehicles to not require constant human control.

Safe Harbor:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The Company intends that such statements about the Company's future expectations, including future revenues and earnings, technology efficacy and all other forward-looking statements be subject to the Safe Harbors created thereby. The Company is a development stage firm that continues to be dependent upon outside capital to sustain its existence. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from expected results.
